Services Provided

Full service interior design and architecture

Located in San Francisco's historic Jackson Square District, the new Leviton LIVE Experience Center serves as a showroom and training center where Leviton demonstrates its product offerings in various commercial and residential settings. Nestled in the heart of the historic Barbary Coast neighborhood, the design reflects the history of the era in its finishes, furniture, and environmental graphics. The Barbary Coast was an infamous entertainment district located along the harbor during the second half of the 19th and early 20th centuries and featured dance halls, concert saloons, bars, jazz clubs, and variety shows.

Designed with customer events in mind, the hospitality bar with custom millwork is a welcoming feature off the entrance and a tongue-in-cheek nod to the area's past. A historic map of San Francisco fills an entire wall of the main conference room. A custom-designed sliding barn door, referencing old saloon floors and wooden ship planks, screens the IT/Control room when the room is not on display. The residential living room and kitchen space demonstrates elegant product integration solutions.
