Full service interior design and architecture; Environmental graphic design; Furniture specification

IA was retained by Univision, the largest Spanish-language broadcast network in the United States, to provide strategic planning/programming, space planning and design services to reposition and expand their current space at 605 Third Avenue in New York City. The project involves a refresh of the executive floor, renovation to five existing floors, and expansion to include two new floors.

IA's scope of services included master planning, visioning and programming and complete design services from schematic design through construction administration.
