

WAKEMED

Forestville, NC
Urgent Care and
Primary Care

Size

7,500 square feet

Project Highlights

Dual space for Wake Med Urgent Care and Wake Med Primary Care with separate entrances; Utilized existing back door location as an emergency vehicle access point; Sliding partition in waiting room allows for dual facility registration during peak hours; Centrally located x-ray, procedure, and blood draw/testing area; Barn door at triage eliminates swinging door obstruction

Services Provided

Full service interior design and architecture
